

Scalability & Future Plan

Date	24 June 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited training dataset	May reduce prediction accuracy	High
2	Local Flask deployment only	Limited accessibility	Medium
3	No real-time banking API integration	Manual data entry required	High

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Single-user Flask application	Deploy on cloud using Render or AWS
2	Data Storage	CSV files	MySQL or PostgreSQL database
3	Performance	Local processing	Optimize using cloud servers
4	Security	Basic input validation	Add user authentication and HTTPS

Future Roadmap:

Phase	Planned Feature	Timeline	Expected Impact
Phase 2	Cloud Deployment	2 Months	Access from anywhere
Phase 3	Mobile Application	4 Months	Improve user accessibility
Phase 4	Banking API Integration	6 Months	Real-time credit verification
